Hello, is the person who manages your _____ in today? Great can I speak with them for 2 minutes about their _____ offer?

They will either give you and answer or ask you a question: ie: "what's this about?"

I'd like to share how a simple \$15 investment in mobile media can increase the effectiveness of your _____ by 300%.

Hello my name is _____, how are you doing today THIER NAME? Great, are you using mobile media yet?

I know you must be busy so to speed things up I set up a live 2-second demo for you. Do you have your cell phone handy?

If they ask "why" or "tell me what this is about "just repeat, "I want to show you how a simple \$15 investment in mobile media can increase the effectiveness of your _____ by 300%."

Great, pull it out - open a new text message and for the phone number use 90210, in the txt message put _____ then press send...

.....Cool right!

Their response more than likely is, "yes that is cool", or "how did you get my offer in there?"

You can use mobile media to capture people while they are in your store, when you advertise, or even when you post to your social media!

Once you capture them you can instantly connect with them whenever you want via txt. You can send them alerts them about special coupons, and events to drive them back to buy from you again and again.

You see just like when you texted _____ to 90210 and got a coupon, your customers can do that instead of visiting www.whatever.com or calling you.

They can do it anywhere and this is great for you because you are already using _____ to boost your business this will certainly turbo-charge it.

Think about it; nobody reads postal mail, and emails are becoming less and less effective, but text message are being read 97% of the time and most of them in the first 5 minutes!

Not only will your database now read your messages, but they will get them right away allowing you to basically create business on demand with the push of a button.

This has never existed before and I wanted to show it to you as soon **as I noticed your keyword was still available @90210.**

This lets them know that they could possibly lose something if they don't act now.

Anyway, like I said earlier, you must be busy and I have a few more appointment to keep today, is there a good time to speak with you in a little more depth? I have _____ at _____ available and _____ at _____, which one works better for you?

Make sure you give them the alternate close, one day or another with specific times. This shows you are professional and busy.

Great, I look forward to meeting with you then. To ensure this is a progressive meeting it would be best if we were all in front of a computer and had all the final decision makers in the room.

I'll send you an email to confirm our appointment, what's your best email address? What's you cell so I don't have to use the business line?

Set appointment reminder up for both you and your appointment using your 90210 dashboard. Call Upline for support. Your Upline support should not be just one person.

Recruit Professional like Real Estate Agents and Insurance Brokers

Hello my name is _____ I always keep an eye out for sharp people and some of your promotional advertising caught my attention.

I have a quick question for you...

Do you keep your options open in terms of generating additional revenue outside of your current business, or are you locked into what you are currently doing?

Yes I am open.

Great, I'd like to sent you an email with some brief information in an email, what's your best email address.
